MEMORANDUM FOR: Assistant for Plans and Development *JWC*

SUBJECT : Disposal of the [] Correlator

1. [] and I would like to make it a matter of record for your future discussions with [] that if at all feasible our preference would be to send the [] Correlator to the [] facility in [] rather than the [] facility in []

2. Our reasoning is that more knowledge would be gained by having a correlator in the hands of the [] manufacturer, because [] could thereby feed back deficiencies noted in correlated material to their own engineers, and thus correct the radar acquisition device without complications of communications between [] It is presumed that [] under these circumstances, would be willing to spend the company's own money to accomplish this task. Conversely, indications seem to be that [] would be reluctant to spend their own money if the correlator is located at the [] facility in []
